

# Sharing your Curriculum with other CSTA Wisconsin Dairyland Members

Thank you for your willingness to share your resources with other Computer Science teachers from Wisconsin! Below are the step-by-step directions for sharing multiple files. If you would like to just share one file, please go to step 4.

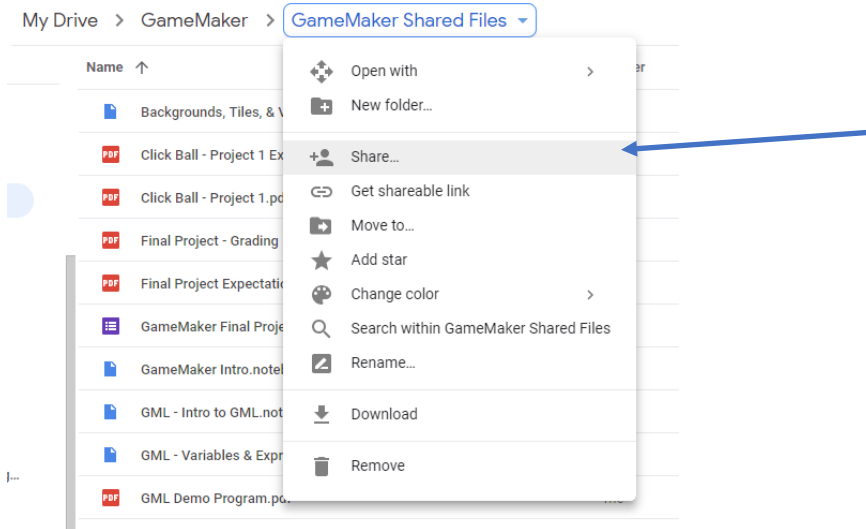

1. Create a new folder on your Google Drive. Please do one folder for each area that you are sharing. (ie. Java Shared Files, Python Shared Files, GameMaker Shared Files, etc.)

2. Add the files that you are willing to share to that folder. (ie. In Google Drive, choose New...File Upload or move the items to that shared folder)

3. Click on the Folder Name and choose Share.

4. Choose the Advanced link (bottom right), then next to Private choose Change. Then under Link Sharing choose “On – Anyone with the link” and access should be “Can view only”

### Link sharing

5. Copy the link to Share. Go to the CS Resources folder here:  
<https://drive.google.com/drive/u/1/folders/12OIVkccwWLxlb0UpIFkbPp7wnCZ9y4Sj>
6. Open the correct spreadsheet, enter in your information, and then paste your sharing link.
